

Put your security
in writing.

Protect your key files
with image and document
watermarking.

From pre-production all the way through consumer licensing programs,
MediaSilo keeps your project safe and sound.

Personalized Security

Deter leakage of key files with burned-in viewer info such as full name and email address.

Protect what's important

Whether you're trying to protect scripts, key art, screenplays or call sheets, MediaSilo supports all content crucial to supporting your project.

Review and share from anywhere

Use MediaSilo's web, desktop, and mobile apps to access every watermarked file on every platform you need.
