

Delivering on the promise of remote production

Empower creativity beyond boundaries with **EFS Swift Link**

Connect to your EFS nodes and work on your media securely from any location.

Automatic latency detection

Regardless of location or network conditions, the system adjusts to ensure you experience minimal disruptions and maximum performance.

User-friendly interface

EditShare Connect makes connecting to remote EditShare systems easy, simplifying the process and eliminating complex configurations. Use the same interface whether working in your facility or remotely.

Collaborate from anywhere

Work on a specific project with team members across the globe and across time zones, all with a unified user experience.

Use your favorite NLE

Choose between leading NLEs to finish your project, whether they work on a Mac, Windows or Linux platform.

Edit from anywhere

Edit natively with proxies or download to work offline and automatically relink to high resolution when available.
